

eFront Client Success Story

Firm type: asset servicer
Assets under allocation: \$5.8 B
Geographical presence: Europe

eFront Invest solution

Luxembourg Investment Solutions (LIS), has implemented eFront Invest solution, that covers a number of business modules for portfolio administration and management, fund and investor management and accounting, as well as reporting tools, for both direct and indirect private equity asset classes. It will help LIS consolidate all databases and reporting systems into one single platform, reducing complexity, and thus improving overall efficiency. LIS will also leverage the solution to automatically and quickly provide its investors with accurate fund level data.

“ Working with eFront is working with a partner that is an expert in our core asset classes and who understands our unique needs”.

**Dr. Thomas Goergen, LIS
Managing Director**

Key benefits

Streamlined and enhanced investor reporting process

Reduced operational workload

Single data and reporting platform

About LIS
