Geographical presence: Asia-Pacific

## National Pension Service implements eFront Invest

After a formal RFP process, NPS, the third largest public pension fund in the world, selected eFront and went live within 4 months with eFront Invest solution. NPS will leverage eFront Invest as a single, integrated portfolio management system to manage and analyze its direct and indirect investments across multiple illiquid asset classes including private equity, real estate, infrastructure, and private debt. In addition, eFront Invest will help NPS streamline its due diligence process through dedicated dealflow management features, essentially functioning as a central repository, workflow, and analysis tool for its investment team's activity.

### Key benefits

Integrated portfolio management system

Streamlined due diligence process

Went live within 4 months

### About NPS

National Pension Service (NPS) is a public pension fund based in Seoul, South Korea established in 1987 to help secure the retirement benefits of Korean citizens. The fund invests in alternative investments (PE, VC, RE, HF) but also makes direct investments. NPS operates its own private equity funds and participates in one-off investments with Korean and foreign private equity firms. Find more at [english.nps.or.kr](http://english.nps.or.kr).

eFront pioneers technology in alternative investments to help alternative investment professionals achieve superior performance. With more than 850 Limited Partner, General Partner and Asset Servicer clients in 48 countries, eFront is the leading technology partner to alternative investment professionals.
