eFront VC solution

Sapphire Ventures LLC (formerly known as SAP Ventures) is a venture capital firm specialized in direct and fund of funds investments in the Fintech sector. By leveraging the eFront VC solution, the firm has optimized its entire fund and portfolio administration cycle and simplified its accounting process. It now has all investment and fund transactions managed through a centralized system, with the ability to track complex allocation structures separately, while performing live reporting and analysis.

“Implementing eFront VC was a critical decision for Sapphire Ventures that helped us streamline our internal processes. As for the finance department, we now have a single platform for our direct and indirect investments, enabling us to optimize resources, scale-up data gathering and improve reporting.”
